UNEX
ARCHITECTURAL BARRIERS

UNEX PANORAMA

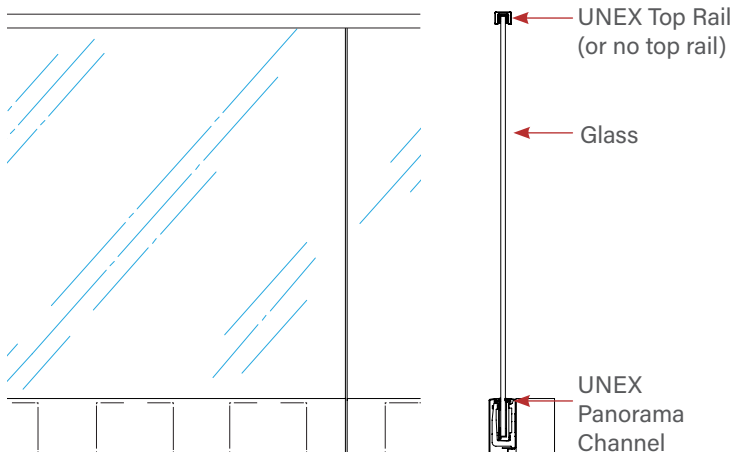

Side Mounted Channel - Uninterrupted views, modern design.

True to its name, the Panorama is perfect for enjoying 360-degree views. This style features recessed, reinforced 12 mm or 15 mm glass panels with a continuous top rail, or it can be installed without a top rail using a SentryGlas® interlayer. Completely hidden fixings deliver an ultra-clean, minimalist aesthetic without compromising safety or security. Its side-mounted aluminium channel keeps the glass secure while maintaining an uninterrupted view, ideal for decks, balconies, and terraces.

General Fixing Arrangement

Key Features

- > 150mm high, side-mounted channel system.
- > Downloadable pre-engineered Producer Statements (PS1s) for standard heights up to 1200mm from finished deck level, with expert advice available for more bespoke applications.
- > Grade 316 stainless steel fixings for improved corrosion resistance.
- > Fully compliant with NZ Building Code.
- > Installed nationwide by UNEX authorised fabricators.
- > Backed by technical support from NZ's leading balustrade specialists.

Colours

Aluminium can be powdercoated to a colour of your choice. A wide range of exterior powdercoat finishes are available. Duralloy or equivalent is the standard finish supplied, unless stated otherwise, which provides excellent resistance to weather and salt spray.

Warranty

Material supplied by UNEX has a warranty period of 10 Years for Residential applications and 5 Years in Commercial applications.*

Typically, the powdercoat colours have a 15 Year durability and 15 Year colour warranty* but can vary depending which colour is chosen.

(*Subject to terms & conditions, care, & maintenance.)

UNEX METROPOLIS

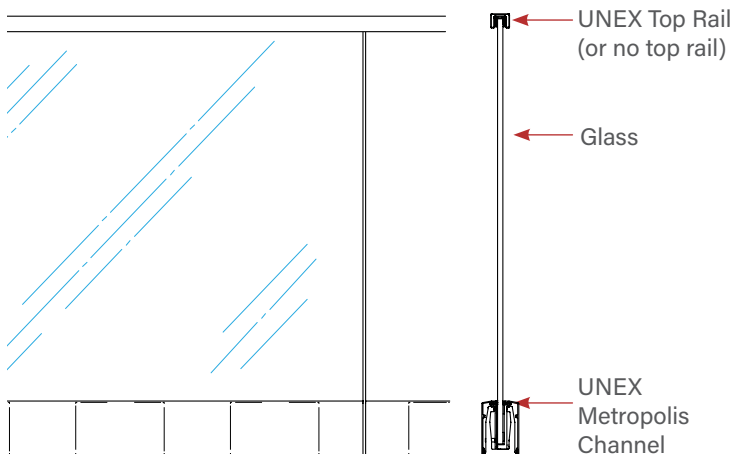

Top Mounted Channel - Nearly invisible, strikingly modern.

Blink and you'll miss the Metropolis, a frameless glass balustrade ideal for design-forward architecture in urban settings. This style features recessed, reinforced 12 mm or 15 mm glass panels with a continuous top rail, or can be installed without a top rail using a SentryGlas® interlayer. The cantilevered design and optional top rail provide added safety while maintaining a clean, post-free aesthetic, perfect for high-end, minimalist architecture.

ARENA-POINTS

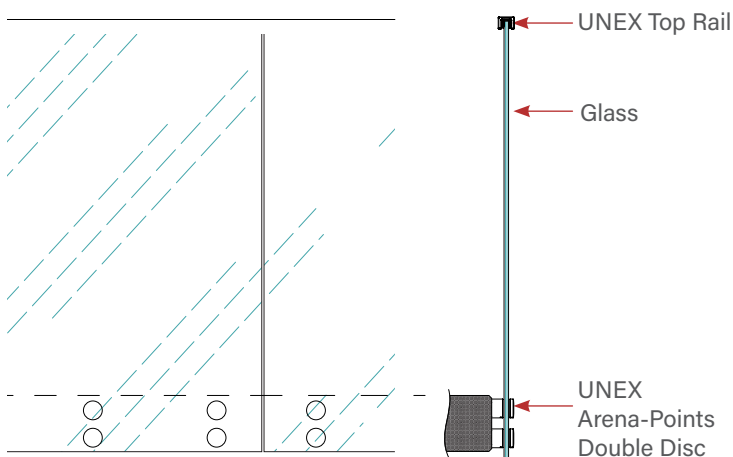

Minimalist strength with a floating glass finish.

Make a bold design statement with Arena Points Frameless Glass Balustrade. Sleek 50mm circular standoffs create a floating glass effect that delivers safety without sacrificing views. Available in 12mm or 15mm toughened glass and a range of premium finishes – polished, brushed, powder-coated, or anodised – it's the perfect balance of strength and style for homes, apartments, and commercial spaces. Fully compliant with NZ standards and backed by UNEX's proven expertise, it's a standout solution built to impress and built to last.

UNEX GlasStrut

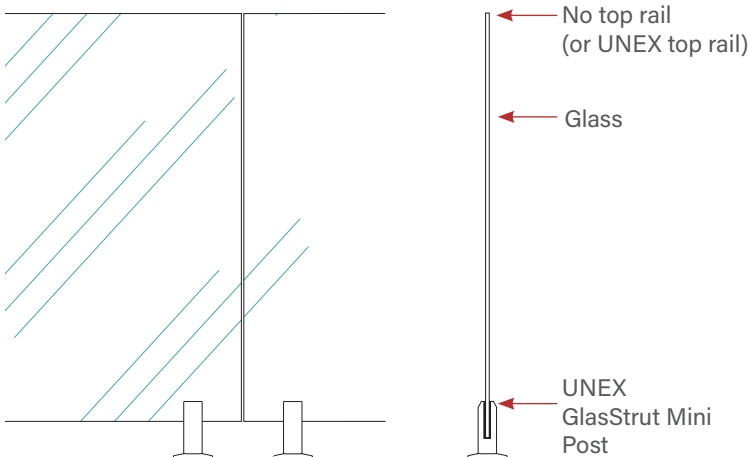

Mini Post Spigot - Sleek, strong, and stylish.

Refined, premium, and minimalist, the GlasStrut Mini Post system enhances any outdoor space with near-invisible frameless glass. Available in top-fixed (160 mm high) or side-fixed (305 mm high) options, its sleek stainless-steel spigots securely clamp glass to the substrate for a clean, modern look with hidden fixings.

Crafted from 2205 Duplex Stainless Steel, GlasStrut delivers superior strength and corrosion resistance, ideal for pool fencing or balustrades where fall protection is required. This system blends architectural elegance with proven performance, providing uninterrupted views, lasting durability, and low-maintenance quality.

General Fixing Arrangement

Key Features

- > Available in top-fixed (160 mm high) or side-fixed (305 mm high) options.
- > Downloadable pre-engineered Producer Statements (PS1s) for standard heights up to 1200mm from finished deck level, with expert advice available for more bespoke applications.
- > Grade 316 stainless steel fixings for improved corrosion resistance. Mini posts are crafted from 2205 Duplex Stainless Steel.
- > Fully compliant with NZ Building Code.
- > Installed nationwide by UNEX authorised fabricators.
- > Backed by technical support from NZ's leading balustrade specialists.

Colours

Stocked in polished stainless steel, matt black, or can be powdercoated to a colour of your choice. A wide range of exterior powdercoat finishes are available. Duralloy or equivalent is the standard finish supplied, unless stated otherwise, which provides excellent resistance to weather and salt spray.

Warranty

Material supplied by UNEX has a warranty period of 10 Years for Residential applications and 5 Years in Commercial applications.*
