PORTIQO ARCHITECTURAL SCREENS

Portiqo Architectural Screens are an aluminium screening system designed to enhance architectural aesthetics across residential, commercial, and industrial environments.

Manufactured in New Zealand from architectural grade aluminium, Portiqo combines durability, design flexibility, and consistent modular construction to deliver reliable architectural screening solutions that are simple to specify, fabricate, and install.

Available in a wide selection of powder-coated colours and Metwood timber-look coatings, Portiqo enables designers and builders to achieve refined architectural outcomes with long-term performance and minimal maintenance.

Designed for façade screening and visual enhancement rather than fall prevention, Portiqo Screens are supplied exclusively through UNEX-
authorised fabricators, ensuring accurate fabrication, expert installation, and reliable project delivery.

CONFIGURATION OPTIONS

Portiqo Screens can be installed in three architectural arrangements:

- Face-fixed wall screening
- Bottom- and top-fixed vertical screens
- Sloped or gable-end applications

The non-weld assembly simplifies fabrication, improves consistency, and enables scalable project delivery. Important: Portiqo Architectural Screens are not intended as fall-prevention barriers.

STANDARD BATTEN PROFILES

Range includes five architectural extrusion sizes.
Battens are supplied in 6.5 m stock lengths with
matching accessories for efficient on-site assembly.

50 x 50 mm

75 x 50 mm

125 x 50 mm

175 x 50 mm

225 x 50 mm

AVAILABLE IN A RANGE OF FINISHES

POWDERCOATING

- Dulux architectural powdercoat range
- Excellent colour stability and durability
- Long-term resistance to fading and weathering

Popular Powdercoating Colours

Silver Pearl

Grey Friars

Flaxpod

Ironsand

Matt Black

WHY CHOOSE PORTIQO BY UNEX

- ✓ **COMPLETE ARCHITECTURAL ALUMINIUM SOLUTION**
One trusted supplier for screening, balustrades, deck framing, and outdoor structures - ensuring consistency in quality, finish, and project delivery.
- ✓ **DESIGN FREEDOM WITH SYSTEM CONSISTENCY**
Modular aluminium battens enable creative architectural outcomes while maintaining the accuracy, efficiency, and reliability of a pre-engineered system.
- ✓ **DESIGNED FOR NEW ZEALAND**
Made in New Zealand and developed to suit local environmental conditions, with durable, low-maintenance aluminium construction.
- ✓ **TECHNICAL EXPERTISE**
Access to UNEX expertise and specification support from early design through to fabrication and installation
- ✓ **PROVEN RELIABILITY**
Supported by more than 40 years of UNEX Systems experience and backed by a 10-year product warranty for long-term peace of mind.
- ✓ **SUPPLY AND INSTALLATION**
Supplied through UNEX's trusted nationwide network of authorised installers and fabricators across New Zealand.

LET'S TALK

From early design guidance through to detailed specifications and fabrication support, the UNEX team is ready to help bring your Portiqo project to life.
